

DAVE'S

Biography

What Dave Brings:

- *Captivating programs that audiences will rave about*
- *Practical low cost initiatives that enhance the bottom line*
- *Increased morale and productivity you can measure*
- *Liveliness, Irish wit and laughter while learning new practical ideas*

Are you ready for a dynamic, animated and fun loving speaker with content that evokes action? Dave is an authority on innovative ideas to energize the workplace, reduce stress, and develop a culture of cooperation. He also provides a unique perspective on ways to bring more “fun-energy” to the workplace and the resulting competitive advantage.

Imagine a presenter who gives you ideas that you can start implementing today for minimal cost. Envision initiatives that lead to enhanced employee retention, a workplace that easily recruits talent, energizes employees, boosts morale and increases profitability.

A world champion of public speaking finalist in Reno NV in 2004, Dave made the top 10 out of 20,000 contestants.

His worldwide experiences of working with thousands of engineers over a period of nearly 30 years combined with his hands-on knowledge of the challenges engineers face, provide him with a unique perspective.

His careers have included Chief Engineer Officer on worldwide cargo ships, Risk Engineering Specialist in Canada and Principal Risk Engineer for a chemical corporation in Texas, USA.

His travels have taken him to 75 countries, from the highlands of Papua New Guinea, to the shores of Ethiopia, to the Pacific Islands.

For nearly two years he was a volunteer engineer officer on a scientific ship travelling from Chile to Australia and on a square rig sailing ship travelling from Australia to the Caribbean.

Whether speaking to thousands or 20 Dave brings his unique personality and perspective blended with his diverse experiences.
